# *Fall 2017 Candidate's Guide*

## Specialty Certification in:

Ambulatory Care Pharmacy  
Critical Care Pharmacy  
Nuclear Pharmacy  
Nutrition Support Pharmacy  
Oncology Pharmacy  
Pediatric Pharmacy  
Pharmacotherapy  
Psychiatric Pharmacy

**Application Deadline: August 1, 2017**

**Test Dates: September 21-October 7, 2017**

**T**hank you for your interest in becoming certified in your chosen field of specialty practice. As the delivery of health care becomes more sophisticated and complex, health care providers and the system they work in will be asked to become even more accountable for the quality of care they deliver. By choosing to pursue specialty certification you are taking an important step to recognize your specialized training, knowledge and skills. Most importantly your pursuit of specialty certification indicates your commitment to improving patient care.

For 40 years, the Board of Pharmacy Specialties (BPS) has provided specialty-level certification programs for pharmacists – both nationally and internationally. The founding of BPS by APhA in 1976 resulted from a five-year effort during which the entire profession studied and deliberated the issue of specialization in pharmacy. Ambulatory Care Pharmacy, Critical Care Pharmacy, Nuclear Pharmacy, Nutrition Support Pharmacy, Oncology Pharmacy, Pediatric Pharmacy, Pharmacotherapy and Psychiatric Pharmacy exist today as bona fide specialties due to ongoing collaborative efforts by all segments of the profession. As of 2017, the Commission for Certification of Geriatric Pharmacy (CCGP) has moved the geriatric pharmacy credential to the BPS portfolio of certifications. In 2018, the geriatric credential will be fully integrated into the BPS structure of specialty pharmacist credentials.

The Board, with assistance from several professional organizations and their members, has continued to provide vital leadership and support for the recognition of specialties and the certification of pharmacist specialists. As a result, BPS and its Specialty Councils are now the principal entities through which these activities are carried out for the pharmacy profession. Each of the Specialty Councils works diligently with test development consultants to ensure that the entire certification process is psychometrically sound and defensible. BPS is also working with its strategic partner organizations to promote the value of specialty recognition and certification to the profession, other health care professionals, employers, and the public.

Through the rigorous standards mandated by BPS board certification and recertification, the specialty-credentialed pharmacist stands out as the most qualified individual to meet today's expanding professional expectations. BPS salutes your interest and commitment to quality patient care.

William M. Ellis, RPh, MS  
Executive Director

Board of Pharmacy Specialties • 2215 Constitution Ave., NW • Washington, DC 20037-2985

*The Board of Pharmacy Specialties (BPS) is an autonomous division of the American Pharmacists Association (APhA), founded in January 1976 to recognize specialties and certify pharmacists in specialized areas of pharmacy practice. BPS Specialty Certification Programs in Ambulatory Care, Nuclear Pharmacy, Nutrition Support Pharmacy, Oncology Pharmacy, Pharmacotherapy and Psychiatric Pharmacy are recognized as accredited certification programs by the National Commission for Certifying Agencies, (NCCA).*

# GENERAL INFORMATION

---

## Board of Pharmacy Specialties

The Board of Pharmacy Specialties (BPS) is an independent, non-governmental certification body that provides recognition of persons involved in the advanced practice of pharmacy specialties. BPS was created on January 5, 1976 by the American Pharmaceutical Association (now the American Pharmacists Association, APhA), and exists today as an autonomous division of APhA.

The Board is composed of eight pharmacists, five of whom represent BPS specialty practices, three pharmacists who are not Board Certified, two health care professionals other than pharmacists and one public member. The Executive Director and one member of the APhA Board of Trustees are non-voting Board members, *ex officio*.

BPS has established a Specialty Council for each recognized specialty. Specialty Councils work with the Board to develop and administer psychometrically sound and defensible certification processes, consistent with public policy regarding the credentialing of health care professionals. A Specialty Council is composed of seven pharmacists certified in the specialty area and two other pharmacists.

The five point purpose of the Board of Pharmacy Specialties Certification Program:

1. To grant recognition of appropriate pharmacy practice specialties based on criteria established by the Board of Pharmacy Specialties;
2. To establish standards for certification and recertification of pharmacists in recognized pharmacy practice specialties;
3. To grant qualified pharmacists certification and recertification in recognized pharmacy practice specialties;
4. To serve as a coordinating agency and informational clearing house for organizations and pharmacists in recognized pharmacy specialties;
5. To enhance public/consumer protection by developing effective certification programs for specialty practices in pharmacy.

## Importance of Certification

The primary purpose of specialization in any health care profession is to improve the quality of care individual patients receive, to promote positive treatment outcomes, and ultimately, to improve the patient's quality of life. Specialties evolve in response to the development of new knowledge or technology that can affect patient care. The rapid, dramatic advancement of drug therapy in recent decades has created a clear need for pharmacy practitioners who specialize in specific kinds of treatment and aspects of care. Specialty certification is a responsible, progressive initiative from the profession to try to ensure the best possible patient care.

Board certification has allowed more pharmacists to participate in collaborative drug therapy management, which is a significant value to patients. Pharmacists certified in a specialty are frequently sought for professional consultations. As the contributions of pharmacists become more recognized we anticipate greater recognition from public and private

payers. Employers and patients can feel secure in knowing that a board certified pharmacist has taken the initiative to seek advanced specialized training that sets them apart.

Certification can also provide a personal reward for pharmacist specialists. Preparing for the certification exam offers an opportunity to increase advanced, specialized knowledge in a practice area. Specialty certification is a means of informing other professionals of the individual's educational and practice accomplishments, setting the specialist apart from colleagues. It is one way to demonstrate advanced knowledge and skills independent of, and in addition to, a degree program, license or residency.

## Recognition of BPS Certification

BPS-certified pharmacist specialists are recognized for their advanced level of knowledge, skills, and achievement by many government agencies and educational organizations. The following are examples of specific benefits that may be realized by BPS-certified pharmacist specialists:

- U.S. Nuclear Regulatory Commission: specialists may be recognized as Authorized Nuclear Pharmacists;
- U.S. Department of Defense: specialists may receive bonus pay;
- U.S. Department of Veterans Affairs: specialists may serve at a higher pay step;
- U.S. Public Health Service: specialists may receive bonus pay;
- California, New Mexico and North Carolina State Boards of Pharmacy: specialists may apply for advanced privileges.

## OVERVIEW

---

This Candidate's Guide is intended for use by pharmacists who are interested in being certified as specialists by the Board of Pharmacy Specialties (BPS) in any of the BPS-recognized specialty practice areas. This Guide provides information on BPS certification processes: eligibility requirements, application procedures, examination administration, annual certification maintenance, and recertification.

This document is ONLY A GUIDE. The information, procedures, and fees detailed in this publication may be amended, revised, or otherwise altered at any time and without advance notice from BPS. The provision of this Guide does not confer any rights upon an applicant. The information contained in this Guide supersedes information contained in all previous editions of the BPS Candidate's Guide.

All correspondence and requests for information concerning the administration of BPS specialty certification examinations should be directed to:

## Board of Pharmacy Specialties

2215 Constitution Avenue, NW  
Washington, DC 20037-2985  
TEL 202-429-7591 • FAX 202-429-6304  
[www.bpsweb.org](http://www.bpsweb.org)

## Non-discrimination Policy

BPS endorses the principles of equal opportunity and

non-discrimination. BPS does not discriminate with regard to age, gender, ethnic origin, race, religion, disability, marital status, veteran status, sexual orientation, or any other category protected by federal or state law.

### Statement of Impartiality

BPS management and its employees, volunteers and contractors understand the importance of impartiality and the consideration of any potential conflict of interests in carrying out its certification activities. Certification of individuals is based on objective evidence obtained by BPS through a fair, valid and reliable assessment process which is not influenced by other interests or parties. BPS is committed to identifying and assessing risks in all related certification activities which may result in a conflict of interest or pose a threat to impartiality.

BPS provides objective and balanced certification activities for all applicants, candidates and certified persons. Impartiality is a key component of our business ethics and we adhere to transparent procedures based on ISO 17024, which allows us to monitor our certification activities to avoid any potential threats to impartiality.

### Statement of Confidentiality

BPS is committed to protecting confidential or proprietary information related to applicants and certification holders, as well as the examination development, maintenance and administration process. BPS will not disclose any confidential applicant/certification holder information outside of the course of BPS business unless authorized in writing by the individual or as required by law.

**Exam Results:** Individual examination results are considered confidential. Exam scores are released only to the individual candidate, unless a signed release is provided in advance. Results are not released by phone, fax or email. All personal information submitted by applicants and certification holders with their application is considered confidential.

**Application Status:** An individual's application status is considered confidential. We do not disclose information regarding whether or not an individual has applied for certification or has taken the examination, with the exception of performing an employment verification audit of certification applications chosen at random. Current certification status is published and verifiable as noted in the Credential Verification section (below).

**Credential Verification:** The names of currently certified individuals are not considered confidential and may be published by BPS. Published information may include name, city, state, country, certification(s) held, and certification status.

**BPS Database:** Personal information retained within the application/certification holder database and/or applicant/certification holder files will be kept confidential. This includes information and any documentation regarding a disability and the need for accommodation in testing. With the applicant/certification holder's written permission, BPS shares non-personal information with third parties.

This information is not considered confidential and may include name, city, state, country, certification(s) held, and certification status.

### Record Retention Policy

BPS retains examination results (scores), summary reports from exam administrations, and active applicant data indefinitely. We retain submitted paper documentation for one (1) year. After one (1) year, BPS will destroy those documents. Applicants/Certificants should retain their own copies of all documentation sent to BPS.

## APPLICATION INFORMATION

### General Information

All questions pertaining to BPS certification should be directed to the Board. BPS office hours are Monday through Friday, 8:30am-5:00pm (Eastern Time). The Board offices are closed on all U.S. Federal holidays.

All applicants must submit their applications online via the BPS website ([www.bpsweb.org](http://www.bpsweb.org)). A valid credit card is required for the payment for online applications. The online application process uses a secure server.

It is the candidate's responsibility to submit an application that is completely and accurately filled out by the deadline of August 1, 2017. Incomplete applications will not be processed. All applications are processed within 20 business days of receipt.

### Name and/or Address Changes

***All applicants are responsible for immediately notifying BPS of any address change (including e-mail) or legal name change.*** Notification for admission to the examination, communication of test results, maintenance of certified status and renewal of certification depend on the Board having current information. An applicant or certificant who legally changes his or her name should immediately notify BPS by submitting a "Name Change Request" through their MyBPS account. Please be advised that the name you submit with your application must match your current copy of government-issued photo identification with signature (e.g., driver's license, passport, or government-issued identification card). Failure to provide BPS with a name matching your identification may result in a denial to enter the testing center on your scheduled examination date.

Please update your BPS account immediately with changes in contact information (mailing address, e-mail address, etc.) to ensure timely communication. Address and name changes made after the mailing of certificates will result in a charge for a duplicate certificate. Name changes that occur after submission of the application must be received no later than **September 14, 2017** in order to be updated in time for your examination appointment.

### Testing Dates

The Fall Testing window is between September 21, 2017 and October 7, 2017 for those taking the computer-based exam. The paper and pencil based examination is offered in select countries and will be administered only on September 20 2017.

## Important Dates

### APPLICATION DEADLINE

August 1, 2017

### EXAMINATION DATES

Computer-based examinations:

September 21 through October 7, 2017

Paper-based examinations (Egypt and Saudi Arabia only):

September 20, 2017

### LAST DAY TO WITHDRAW

August 1, 2017

### LAST DAY TO SCHEDULE

Applicants testing in Egypt and Saudi Arabia:

August 29, 2017

Computer-based international exam applicants:

September 25, 2017

Computer-based domestic (U.S. and Canada) exam applicants:

October 2, 2017

**International Applicants: please see additional information below.**

cations will not be processed.

At the time of application, you will be required to upload a PDF or JPG version of your current pharmacy license. Candidates qualifying via an ASHP-accredited residency program are required to upload a PDF or JPG copy of a certificate of completion, residency certificate or a letter from their preceptor.

***Please be advised that international applicants (those licensed outside of the United States or Canada) must request a hard copy of their transcripts or certificate of graduation with an official seal to be sent directly to BPS from the University where they received their pharmacy degree in addition to submitting the online application. (see page 12 for further details).***

***After completing your application, please submit the [Education Documentation Request Form](#) to your University. This form must be returned to BPS along with your transcript.***

If you graduated from a university outside of the United States, but are currently licensed in the U.S or Canada, and hold a current U.S. or Canadian license, you will not be required to submit hard copy official graduation documents. However, if you claim practice experience outside the U.S. or Canada, you will be required to upload a copy of your license for that time frame as a part of your online application.

3. All fees must be paid at the time of application submission.
4. Your application will be reviewed by BPS. You will receive a decision regarding your eligibility to sit for the examination within 20 business days. Please be advised that the initial eligibility decision may be revised if the candidate is later found to be ineligible.
5. The names of approved candidates will be forwarded to BPS's exam administrator, Castle Worldwide. Castle will contact candidates via e-mail according to the timeline printed in this guide to schedule the examination date, time, and location.
6. Candidates must schedule the date, time, and location of their examination within the scheduled test administration window. For Fall 2017, the window runs from September 21, 2017 to October 7, 2017 for computer-based exam administration, and September 20, 2017 for those countries holding paper-based examinations.

***Candidates may schedule only one examination in the Fall 2017 window.***

## Eligibility Requirements

Complete eligibility requirements for each specialty can be found beginning on page 15 of this guide or on the BPS website ([www.bpsweb.org](http://www.bpsweb.org)). All practice and educational eligibility requirements must be met prior to the candidate sitting for the exam.

## Test Administration

The Board of Pharmacy Specialties Certification Examinations are administered via internet-based testing by Castle Worldwide (Castle), BPS's approved testing provider, through its affiliated test sites. Candidates may test within scheduled test administration windows domestically or internationally.

***NOTICE: BPS will offer paper and pencil based examinations in the following countries:***

Egypt  
Saudi Arabia

***If you hold a current license in either of the above mentioned countries, please view the section "Examination Format and Administration: "Paper-based Examinations", beginning on page 12. Please be advised that exams will only be offered on September 20, 2017.***

## Overview of Steps in Applying for the Examination

Six basic steps are required to apply for the Fall 2017 BPS Certification Examination; international candidates, please refer to the "[Helpful Tips Guide](#)" for detailed information on requirements.

1. Create an online profile on the BPS website.
2. Once your profile has been created, click on the application link found on the BPS website at [www.bpsweb.org](http://www.bpsweb.org). Please review the eligibility criteria for your specialty before applying. The application must be completed within 24 hours of when you begin. Incomplete appli-

## Processing Applications

All applicants will be notified by BPS via e-mail of their eligibility to sit for the examination within 20 business days of BPS's receipt of their application and fee. For identification purposes, a unique Candidate Number (IND-XXXXXXX) is assigned to each eligible applicant by BPS when an application is processed. Candidates should keep a record of this number and use it in all correspondence with BPS. For the steps following application approval please see the section titled *Scheduling* (below).

If an application is denied, the entire fee will be refunded to the credit card on file. Applicants will receive an e-mail with an explanation as to why the application was denied. Applicants will be notified by e-mail if their application is incomplete.

## Test Sites

Through an arrangement with Castle, BPS candidates can schedule their examinations at more than 450 test sites within the United States and more than 200 test sites outside of the U.S. Test site locations can be found on the BPS website. Once an application is approved by BPS, applicants will be contacted by Castle to begin the scheduling process. Castle will contact you via e-mail. It is recommended that applicants add [testing@castleworldwide.com](mailto:testing@castleworldwide.com) to the list of acceptable addresses so that the e-mail does not get blocked by a spam filter.

In Fall 2017, the scheduled test administration window is held between September 21, 2017 to October 7, 2017 for computer-based exam administration, and September 20, 2017 for those countries offering paper-based exams. Candidates will be able to begin scheduling testing appointments starting in August, according to the timeline printed in this guide.

The testing network available to candidates has ample seats to meet demand for the BPS examinations. Castle will employ reasonable efforts to secure the test site and date requested by the candidate; however, BPS cannot guarantee availability of a testing session at a specific location within the designated testing period. Seats are filled on a first-come, first-served basis, based on test site availability. It is recommended that you schedule your exam as soon as possible.

BPS does not provide information on hotel or travel arrangements. Candidates are encouraged to use their own travel agent or online search engines to locate hotel accommodations near a test site as well as maps and driving directions.

## DANTES Program

Overseas U.S. Military pharmacists may sit for BPS certification exam using the DANTES program through Military Education Centers. When candidates are sent a notice to schedule from Castle, they should contact Castle directly with the location and contact information for the DANTES test site.

## Scheduling

In order to help assure the greatest probability that candidates receive their preferred test site and date, BPS

recommends registering as early as possible. The following schedule has been established:

If you apply between:	You will schedule your exam starting:
May 8- May 30, 2017	August 3, 2017
June 1- June 30, 2017	August 10, 2017
July 1- August 1, 2017	August 17, 2017

*\* Domestic candidates must submit their scheduling request at least four (4) days prior to their preferred testing date during the scheduled test administration window (no later than **October 2, 2017**). Non-U.S. candidates must submit their scheduling request at least ten (10) business days prior to their preferred testing date (no later than **September 23, 2017**). Candidates taking the paper-based examination in Egypt and Saudi Arabia must schedule their examination no later than **August 29, 2017**.*

Castle will issue a Notice to Schedule (NTS) e-mail to approved candidates based upon the schedule noted above. The NTS e-mail will provide candidates with a unique username/password and the URL address to access Castle's online test scheduling system. Candidates will select from a listing of available testing centers by geographical location and test date: **you will receive your Notice to Schedule email from Castle by close of business on the date indicated on the above schedule.**

Castle will provide telephone and e-mail support to candidates on matters related to scheduling a testing appointment. Voice-mail will accept candidate inquiries outside of normal U.S. business hours [Eastern time].

Once a testing appointment is scheduled, the candidate will be notified of the exact test location, date, and time via e-mail. If you do not receive this email within 24 hours, you should contact Castle at [testing@castleworldwide.com](mailto:testing@castleworldwide.com). **The candidate must bring his/her printed confirmation to the test site; please note that this confirmation will contain critical information, including the candidate's testing password.**

The candidate also must bring a current, government-issued photo identification with signature to the test site. Acceptable forms of identification include driver's licenses, passports, and government-issued identification cards. Unacceptable forms of identification include gym memberships, warehouse memberships, school identification cards, credit cards, and identification with signature only (no photo).

The candidate's name as it appears on the confirmation e-mail must match the candidate's name as it appears on the government-issued photo identification. **Candidates are responsible for contacting BPS with any name changes that occur after the submission of their application. Candidates have the ability to request a name change through their BPS online profile, and will be required to upload a PDF or JPG copy of government-issued identification showing their new name as part of that request. All name change requests must be received by September 14, 2017.**

## Rescheduling

Candidates may reschedule a testing session up to four (4) business days in advance of the scheduled testing appointment through Castle's scheduling system. **BPS staff will not process change requests. A \$50 nonrefundable fee, payable to Castle, will apply.**

Day of Testing Appointment:	Must Reschedule/Cancel By:
Monday	Tuesday of the previous week
Tuesday	Wednesday of the previous week
Wednesday	Thursday of the previous week
Thursday	Friday of the previous week
Friday	Monday of the current week
Saturday / Sunday	Tuesday of the current week

## Special Circumstances

In the following situations and with appropriate documentation, candidates may change their testing session date to another date within the SAME testing window with fewer than four (4) days' notice. Candidates must contact Castle directly with documentation in order to reschedule. A \$50 nonrefundable fee, payable to Castle, will apply.

- (i) Serious illness (either the candidate or an immediate family member)
- (ii) Death in the immediate family
- (iii) Disabling accident
- (iv) Court appearance
- (v) Jury duty
- (vi) Unexpected military call-up

## Withdrawals

Candidates may withdraw from the application process prior to the close of the application deadline of August 1, 2017. Candidates must inform BPS of their intent to withdraw in writing, at which point they will be sent a link to an online form to make an official request. The request must be received by the Board on or before the deadline of August 1, 2017. **Candidates who withdraw from the application process will be refunded the fee paid, less an administrative charge of \$200 (\$250 if the exam has been scheduled).** Refunds will be processed within five weeks of the final examination date.

After August 1, 2017, BPS will review requests for withdrawals with decisions made on a case-by-case basis. Acceptable withdrawal requests, with appropriate documentation (e.g., physician's letter, police report, etc.) will be considered under the following situations:

- (i) Serious illness (either the candidate or an immediate family member)
- (ii) Death in the immediate family
- (iii) Disabling accident
- (iv) Court appearance
- (v) Jury duty
- (vi) Unexpected military call-up

Supporting documentation must be submitted to BPS within seven (7) days after the exam date. Candidates who receive a

denial of their withdrawal request will forfeit all testing fees. If the withdrawal request is approved, all administrative fees will apply (\$200 if the exam has not been scheduled, \$250 if the exam has been scheduled).

**Candidates for the Fall testing window do not have the option of deferring their exam to another testing window.**

## No Shows

Not appearing for a testing appointment, not scheduling a testing appointment, or rescheduling less than four (4) business days before a testing appointment (outside of the special circumstances listed above) will count as the candidate's testing appointment. The candidate will be marked as a no-show candidate and all testing fees will be forfeited. No-show candidates will have the option to apply for a future testing cycle at full price.

## Americans with Disabilities Act

The Board of Pharmacy Specialties complies with the relevant provisions of the Americans with Disabilities Act (ADA). If a candidate has a disability and requires accommodations under this Act during the certification examination, he/she should select "Special Accommodations" as part of their application form and then submit the "ADA Accommodations Request Form" as part of their application. All application forms with requests for accommodations must be submitted no later than August 1, 2017.

## Qualified Individual with a Disability

An candidate who is eligible for ADA accommodation is one who has a physical or mental impairment that substantially limits that person in one or more major life activities (e.g., walking, talking, hearing, performing manual tasks), has a record of such physical or mental impairment, or is regarded as having such a physical or mental impairment.

A "qualified individual with a disability" is one who has a disability and satisfies the requisite skill, experience, education, and other requirements of the service, program, or activity of which he or she is being measured; and, with or without accommodations, can perform the essential functions of the service, program, or activity. An essential function is one that individuals are required to perform, and removing that function would fundamentally change the service, program, or activity. **A person must be a "qualified individual with a disability" to be protected under the ADA.**

Reasonable accommodations provide candidates with disabilities a fair and equal opportunity to demonstrate their knowledge and skill in the essential functions being measured by the examination. Reasonable accommodations are decided based on the individual's specific request, disability, documentation submitted, and appropriateness of the request. Reasonable accommodations do not include steps that fundamentally alter the purpose or nature of the examination.

Reasonable accommodations generally are provided for candidates who have a physical or mental impairment that

substantially limits that person in one or more major life activities (e.g., walking, talking, hearing, and performing manual tasks), have a record of such physical or mental impairment, or are regarded as having a physical or mental impairment.

To apply for reasonable accommodations, the candidate must request accommodations as part of the application process. To ensure appropriate accommodations can be provided, candidates must submit their completed ADA Request Form and all additional documentation as part of the application process.

The information and any documentation regarding the candidate's disability and need for accommodation in testing will be considered strictly confidential and will be used solely to determine the candidate's eligibility for accommodations. Supporting documentation must be supplied as part of the application process. Professionals submitting documentation in support of a candidate's request for accommodation may be contacted by BPS or Castle for clarification of any information provided concerning the requested accommodations. Failure to notify BPS of needed accommodations by August 1, 2017, may result in the accommodations not being available at the time of the testing appointment.

### Fee Payments

Payments are made in **U.S. dollars** by **credit card** (VISA, MasterCard, American Express, Discover). **check, cashier's check, or money order** made payable to Board of Pharmacy Specialties. Purchase orders will **NOT** be accepted.

### Application Fee

The application fee payment must accompany each completed application. The fee for first-time applicants for specialty certification is \$600 U.S. dollars for candidates licensed in the U.S. and Canada. For international candidates who are first-time applicants, the fee is \$685 U.S. dollars. Candidates who have failed an examination within the past year have the option to take the examination during this period for a reduced fee of \$300.

### Declined Credit Cards and Returned Checks

When a credit card transaction is declined, or a check is returned for insufficient funds, a valid credit card number must be provided, or payment must be sent by certified check or money order for the amount due.

### Forfeiture of Fees

Candidates who fail to schedule a testing appointment or who fail to arrive at the test site on the date and time they are scheduled for examination and who have failed to get an approved withdrawal will forfeit their examination fees and must re-submit an application for the full price if they wish to re-register for a future testing cycle.

### Late Arrivals

Candidates who arrive at the testing site 30 minutes after his or her scheduled testing appointment and are denied admission, forfeit all testing fees. Refunds will not be issued

for forfeited appointments. **If an appointment is forfeited, there is no refund of the testing fee.**

All fees are subject to change at the sole discretion of the Board.

## INFORMATION FOR CANDIDATES TRAINED/ LICENSED OUTSIDE OF THE U.S. AND CANADA

---

### Information Sources

BPS certification is oriented primarily toward pharmacists licensed and practicing in the U.S.; however, we encourage international applicants to apply. Candidates licensed outside of the U.S. and Canada must request official graduation documents from the university where they obtained their pharmacy program degree. Applicants who obtained their pharmacy degree outside the U.S. and Canada, but are currently licensed in either of those countries, only need to provide a copy of their current state board of pharmacy license to accompany their application.

Applicants who graduated from a pharmacy program outside the U.S. and Canada and who are not licensed to practice pharmacy in the U.S. and Canada should refer to the [Helpful Tips for International Candidates](#) guide before submitting their application.

International candidates must provide the Board with the following by the application deadline:

- An official electronic copy of a graduation transcript and/ or an official graduation certificate (translated into English) as a part of the online application process indicating that the individual has completed an educational program preparing him/her for basic pharmacy practice (as part of the online application process):
- Electronic documentation of current active legal authorization to practice pharmacy in their country of origin or residence.

### AND

- Sealed hard copy of transcripts or certificate of graduation with seal sent directly from the college or university where they received their pharmacy degree. It is preferred that the school send English translations of documentation. Please submit a [Graduation Documentation Request Form](#) to request education documentation from your University (**Candidates must submit an application online prior to having this documentation sent to BPS**). Please instruct your university to send sealed copies of your transcripts or certificate directly to:  
Board of Pharmacy Specialties  
2215 Constitution Avenue, NW  
Washington, DC 20037-2985

**Your application will not be considered complete until BPS has received this documentation directly from your school.**

Throughout BPS specialty certification examinations, all

measurements from laboratory test results are expressed in traditional units. A conversion chart will not be offered as part of the examination. Candidates should take this under consideration when preparing for the exam.

The Board is aware that examination questions dealing with procedures or regulatory issues in the U.S. are not necessarily pertinent to candidates who practice in other countries. However, all candidates are given the same examination and are held to the same standard of achievement, regardless of the country in which they practice and the regulations under which they practice.

**Please note BPS certification does not confer the privilege to practice pharmacy in the U.S. or in any other country.**

## PREPARING FOR THE EXAMINATION

The Board publishes the content outline specific to each examination and strongly encourages candidates to become thoroughly familiar with this document. Content outlines are occasionally modified to reflect changes in practice. Candidates should ensure that they are using the current outline for their specialty. Current content outlines are posted on the BPS website.

Suggested preparation for the examination might include:

- Residency or other formal training;
- The study of journal articles, textbooks, or other publications related to the content outline;
- Continuing education programs and courses in specialized pharmacy practice;
- Study groups and examination preparation courses;
- Reviewing sample test questions printed in this guide or on the BPS website.

Potential applicants may contact the organizations noted below, which offer review/preparatory courses and materials for the specialty or specialties listed to determine program content, relevance to the BPS examinations, and availability.

**BPS and its Specialty Councils neither sponsor nor endorse training or educational opportunities in specialized practice areas or preparatory courses for any of the BPS examinations. BPS does not have any official agents outside of the U.S.**

The list below is for informational purposes only. This is not intended to be a comprehensive list of sources. Please note, candidate's using any preparatory resources agree to abide by all U.S. copyright laws in the use of examination preparation materials.

# ON THE DAY OF THE EXAMINATION

---

## Checking-In on Examination Day

All candidates should arrive at the test site 15 minutes prior to the scheduled testing appointment. Candidates who arrive 30 minutes after their scheduled testing appointment time may be refused admission. Refunds will not be issued in the event of a forfeited testing appointment.

The candidate must present a valid government-issued photo identification with signature (e.g., driver's license, passport) along with a printout of his/her testing appointment confirmation e-mail. The name on your identification must match the name on your confirmation e-mail.

Candidates will be required to sign-in and will be instructed on where to store personal items and where to keep identification. The candidate's identity will be verified every time he/she enters or leaves the testing room.

Candidates who arrive 30 minutes after their scheduled examination time and candidates without valid photo identification will not be admitted to the examination. If that occurs, their fees will be forfeited.

Candidates will not be permitted to enter the exam unless proper identification as described above is presented.

Once the candidate has been checked-in, he/she will be escorted by testing staff to a workstation. The candidate must remain at the workstation unless authorized to leave by test site staff. Candidates may not leave the room without test site staff permission. If the candidate leaves the testing room without permission prior to completing his/her examination, he/she will forfeit the testing appointment and there will be no refund of testing fees.

Test site staff will provide the candidate with an erasable note board or scratch paper, and pen, which may be replaced as needed during the test. The candidate may not remove the note boards, paper or pens, and candidates are not allowed to use their own scratch paper, or writing tools. Additionally, candidates taking the computer-based exam will be provided with a calculator available on their computer screen for use during the examination. Those candidates testing in countries offering the paper-based examination must bring their own hand-held, silent, non-printing, battery or solar powered calculator for use during the examination. Hand-held calculators that contain addition, subtraction, multiplication, division, and log functions are appropriate for the examination. Candidates may NOT use calculators or any other devices that have either word processing or word

storage capabilities (complete A-Z keypad). All calculators will be examined by a proctor before a candidate is admitted to the examination area. Candidates are responsible for providing their own calculators.

Testing room temperature can be unpredictable; therefore, we suggest that you bring appropriate clothing with you (e.g., sweater, sweatshirt without hood) to help you adapt to a cooler or warmer climate in the examination room. Bring earplugs if you are sensitive to noise. If you choose to bring earplugs, they will be subject to inspection by the testing center staff.

## Examination Rules

BPS and Castle follow industry standard testing rules as outlined below.

## Prohibited Items

Candidates are expressly prohibited from bringing the following items to the test site:

- cameras, cell phones, optical readers, or other electronic devices that include the ability to photograph, photocopy or otherwise copy test materials
- notes, books, dictionaries or language dictionaries (unless expressly permitted by the exam sponsor)
- book bags or luggage,
- purses or handbags
- iPods, mp3 players, tablets, headphones, or pagers
- calculators (except as expressly permitted by the test sponsor - see CALCULATOR POLICY BELOW IF APPLICABLE)
- computers, PDAs, or other electronic devices with one or more memories
- personal writing utensils, i.e., pencils, pens, and highlighters (unless expressly permitted by the exam sponsor),
- Google and smart glasses (any glasses with any electronics)
- watches
- weapons
- food and beverage
- coats and jackets
- hats, hoods, or other headwear are not permitted in the examination room unless required for religious purposes.

All items are subject to inspection by the proctor if suspicious behavior is detected.

Please note that sweaters and sweatshirts without pockets or hoods are permitted to be worn.

If the review determines that any test materials are in the memory of any such device, BPS and Castle reserve the right to delete materials and/or retain them for subsequent disciplinary action. Upon completion of the review and any applicable deletions, BPS and Castle will return the device to the candidate, but will not be responsible for the deletion of any materials that may result from the review, whether or not such materials are test materials.

By bringing any such device into the test site in contravention of BPS and Castle policies, the candidate

expressly waives any confidentiality or other similar rights with respect to the device, BPS and Castle review of the memory of the device and/or the deletion of any materials. BPS, Castle, the examination site, and the test site staff are not liable for lost or damaged items brought to the examination site.

### **Inclement Weather and Cancellations**

Castle will attempt to contact candidates in the event of a test site closure due to inclement weather to reschedule their appointment. As sites close, e-mails are issued to the candidates impacted notifying them of the closures, and Castle's website is also updated with this information. However, because closures can occur at any time during inclement weather, it is the responsibility of the candidate to contact Castle to receive the most up-to-date information regarding if a center is open or to reschedule the examination appointment. If a test site is officially closed, candidates will not be charged a rescheduling fee. If a test site is open and the candidate does not keep his or her appointment, the candidate forfeits all fees.

## **EXAMINATION FORMAT AND ADMINISTRATION:**

### **Computer-based Examinations**

The multi-choice format is used exclusively with the exception of the Nuclear, Oncology and Psychiatric pharmacy exams, which may contain alternative items (please read the specialty section for more details).

The examination will be administered via Internet-based format. Candidates will be able to view a demo prior to the exam by visiting <https://www.castleworldwide.com> and clicking on "Sample Test". During the examination, **if a candidate experiences difficulty with the computer, he/she should notify the proctor immediately and wait for further instruction.** Most technical issues are resolved quickly with a simple refresh of the screen or by the proctor logging you back into the examination.

BPS specialty certification examinations are delivered via secure Internet connections. Internet connections are subject to the local Internet providers in the area. While it is not the norm, Internet connections can, on occasion, be lost, requiring the proctor to log you back into your examination. If this occurs, inform the proctor that your connection has been lost and the proctor will assist you in logging back in to your examination.

The examination timer built into the test delivery system accounts for delays in page loads or loss of Internet connections so that you do not lose any examination time. If a proctor logs you back into the examination, you will resume at the first unanswered question (the last question you were viewing). If you have finished answering all questions, then you will return to the first question on the examination. In addition, your answers to examination questions are not lost if you lose the connection to the Internet.

If a technical issue lasts longer than 30 minutes and prevents you from continuing with the examination, you

may choose to stop testing and reschedule to another day, or you may continue to wait for the resolution. Again, most technical issues are resolved quickly.

Candidates will be provided with a calculator app available on their computer screen for use during the examination. A sample calculator is available on the Castle website.

Test instructions will be provided to candidates on their computer screen. Only answers submitted via computer will be scored. Answers written on whiteboards or scratch paper will not be scored.

### **Paper-based Examinations**

Candidates testing in the following countries will be required to take a paper-based version of the examination:

Egypt  
Saudi Arabia

Candidates living in and/or practicing in these countries will not have the option of taking a computer-based examination.

Proctors will administer exam booklets and answer sheets to all candidates at the start of the examination period. Test instructions will be provided to candidates on the use of the answer sheet. Only answers properly marked on the answer sheet will be scored. Answers written in the test book will not be scored. The test booklet and the answer sheet are the property of BPS. BOTH must be returned to the proctors at the end of EACH session of the examination.

The paper examination will also contain 175 multiple-choice questions.

The multiple-choice format is used exclusively. Four possible answers are provided for each question with only ONE designated as the correct or best choice. Each question is carefully written, referenced, and validated to determine its accuracy and applicability.

### **Examination Schedule**

The examination day schedule is provided below.

**Initial certification candidates will be provided timed testing periods, outlined below:**

Examination Part 1 (100 multiple-choice items): 2.5 hour testing period

Break (optional): Up to 45 minutes

Examination Part 2 (75 multiple-choice items): 1 hour, 53 minute testing period

**Recertification candidates will be allowed a 2.5 hour testing period to complete the 100-item multiple-choice recertification examination.** Recertification candidates will have the option of a morning or afternoon administration.

Candidates are reminded that they should arrive at the test site 15 minutes in advance of their scheduled testing appointment time.

If a candidate takes a break outside of the optional break time between Part 1 and Part 2 or during a recertification

exam that time is deducted from their testing period.

## Examination Content

A BPS specialty certification examination samples the knowledge required to perform the tasks in each of the major areas of responsibility of the specialty as defined through a role delineation study. The examination does not attempt to test knowledge at all levels or settings in the specialized practice area. Mastery of the knowledge and skills involved in the defined scope of specialized practice is necessary for board certification, regardless of the particular practice in which an applicant is currently involved.

BPS specialty certification examinations are constructed according to test specifications derived from role delineation studies. Technical support in conducting task analyses, establishing test specifications, and constructing examinations is provided by an independent testing company that specializes in the assessment of the knowledge, skills, and abilities of professionals.

A content outline, listing the domains, tasks, and knowledge statements specific to each specialty practice, is provided for the information of prospective candidates on the BPS website. The content outline also notes the percentage of items per domain. Examination content outlines are developed through a nationwide study of the work pharmacy specialists perform in a variety of practice settings.

Examinations are not structured domain by domain. Instead, test questions for each domain are distributed randomly throughout the total examination. While BPS examinations test the stated domains of each specialty, candidates are advised that the examinations will probably NOT address all of the knowledge statements listed under the domains in the content outline of the examination.

New regulations, drugs, and therapies are incorporated into the examinations. All BPS specialty certification examinations reflect current, best practices, at the time they are constructed – practice guidelines used for the Spring examination are those that are current as of January 1 of the testing year. Practice guidelines for the Fall examination are those that are current as of July 1 of the testing year. Official United States Adopted Name (USAN) generic names are used on all BPS examinations for all drug products, when possible.

## Security

The BPS examinations are the property of BPS and are confidential examinations that are protected by trade secret law, copyright law, and other applicable state and federal laws and regulations. BPS and its testing agency maintain examination administration and security standards that are designed to assure that all candidates are provided the same opportunity to demonstrate their abilities.

Before beginning the examination, candidates will be asked to read and sign a *Statement of Confidentiality*. **This statement restricts candidates from sharing any information about the examination with other individuals, including discussions with fellow test**

**takers following the examination and the sharing of information with colleagues who might be planning to take the examination in the near future.**

Proctors are authorized by BPS and its testing consultant to maintain a secure and proper test administration environment. Candidates will be allowed to leave the room during the test administration to use the restroom facilities as long as they follow the test site procedures. If a candidate takes a break outside of the optional break time between Part 1 and Part 2 or during a recertification exam that time is deducted from their testing period. Candidates will be inspected for devices such as hand-held scanners, cameras, tape recorders, or other electronic equipment. Areas around the testing room (e.g., hallways, restrooms, telephone stalls) are monitored throughout the examination for security purposes. Be aware that you will be observed at all times while taking the examination. Observation may include direction observation by center staff, as well as video and audio recording of your testing session.

Candidates may not communicate with other candidates during the examination. Anyone who provides or receives assistance during the test administration will be dismissed from the testing room. Candidates may not photograph, record, or memorize any examination material. Other causes for dismissal include, but are not limited to using notes, references, or any test aids; using unauthorized calculators; causing a disruption to the test environment; and removing any examination material from the testing site. Candidates who are dismissed from the testing room forfeit all fees.

Personnel authorized by the BPS testing agency will proctor the examination. No one is permitted in the testing room during the examination except for the candidates and persons authorized by BPS and/or the test administrator.

## Statement of Confidentiality for BPS Examinations:

1. This examination and the test questions contained herein are the exclusive property of BPS.
2. This examination and the test questions contained herein are protected by copyright law. No part of this examination may be copied or reproduced in part or whole by any means whatsoever, including memorization.
3. The theft or attempted theft of any examination materials is punishable as a felony.
4. My participation in any irregularity occurring during this examination, such as giving or obtaining unauthorized information or aid, as evidenced by observation or subsequent analysis, may result in termination of my participation, invalidation of the results of my examination or other appropriate action.
5. Further discussion or disclosure of the contents of the examination orally, in writing or by any other means is prohibited.

My electronic signature on my application indicates that I have read, understood and agree to be bound by the statement of confidentiality and that I have read and

understood the BPS Candidate's Guide. Failure to comply can result in termination of my participation, invalidation of the results of my examination or other appropriate action.

## FOLLOWING THE EXAMINATION

---

### Examination Scoring

For computer-based examinations, candidate responses are stored in real time as candidates progress through an examination. Scoring for all candidates takes place after the test administration window closes. Scores are computed based on the correct responses recorded by candidates. It is to the candidate's advantage to answer every question on the examination. There is no penalty in the scoring formula for guessing.

The individual score report will indicate whether the candidate passed or failed the examination. Scores will range from a minimum of 200 to a maximum of 800. The minimum passing score on BPS examinations is 500. Pass/fail decisions are based on the total score indicated on the score report, not on the performance in the domains.

**Candidates will receive their score reports electronically approximately 60 days following the close of the scheduled test administration window by logging in to their MyBPS accounts. BPS anticipates that scores for the Fall 2017 exam will be released in late November.**

A certificate suitable for framing and a BPS lapel pin are sent to newly certified specialists approximately 90 days after notification of certification.

For reasons of privacy and confidentiality, examination results are released to the candidate only. Examination results will not be given via telephone or fax. Access to a candidate's score report is limited to those staff at BPS and Castle who are involved in the processing of these reports. BPS will not release personal information (other than the name of certified individuals under established policy) without written authorization.

In order to protect the security and integrity of the specialty certification examinations, neither BPS nor its testing agency release examination questions, individual answer strings, or the answer key to any individual or organization. Efforts are made by BPS, its Specialty Councils, and its testing agency to produce completely accurate examinations; however, if a candidate believes there is an error in an examination question, the concern should be noted in the candidate comments of the exam and the candidate should contact BPS immediately after the examination.

### Passing Standard

The passing standards, or cut scores, used in BPS examinations were established using criterion-referenced procedures that are widely used in certification. Criterion-referenced passing standards link the score required to pass a test to the minimum level of knowledge required for specialty certification. Each BPS specialty certification program has its own passing standard.

### Equating and Scaled Scores

BPS creates new versions, or forms, of all of its tests on a regular basis. In assembling the new forms, BPS and its testing consultants follow best practices in certification testing so that all forms are comparable in content and difficulty.

Once the examination forms have been equated, a procedure called *scaling* is used to convert the actual number of correct answers, or raw scores, to a uniform scale. These converted scores are called scaled scores. Equated, scaled scores ensure that all candidates for a BPS specialty certification demonstrate at least the same level of knowledge in order to pass the examination.

### If You Do Not Pass the Examination: Retaking the Exam

If a candidate fails to achieve a passing score on the examination, retaking the examination is permitted. The fee for retaking the examination is \$300. If the candidate does not retake the examination within a one-year period, re-submission of the complete application will be required, along with re-payment of the full fee in effect at that time.

**An individual who fails one specialty examination may NOT apply for another specialty examination as a retake candidate at the reduced rate.**

Retake candidates who withdraw from taking the examination are processed as described in the section "Withdrawals".

## COMPARATIVE REVIEW AND HAND SCORING

---

A comparative review verifies that the candidate's answers were scored against the correct examination answer key in order to confirm the candidate's examination was scored properly. Please note that the Internet-based testing scoring process is very accurate and that the BPS scoring process already includes several quality assurance steps and Castle has not yet encountered an error to date.

Those candidates taking the paper-based examination may request a hand scoring review of their answer sheets. This process also verifies that the candidate's answers were scored against the correct examination answer key. Again, the BPS scoring process includes several quality-assurance steps prior to the scoring of the exams.

To request a Comparative Review/Hand Scoring of a BPS examination, the request form, found on the BPS website, must be completed and submitted along with a \$50 U.S. fee to Castle Worldwide. Requests must be received within 60 days of the candidate receiving the score report. Please allow 30 business days to process requests.

## APPEALS PROCESS

---

An appeals process is available to any individual who has applied for or received a BPS certification and wishes to contest any adverse decision or proposed action affecting their application for certification or recertification status.

BPS provides a two-step appeals process for resolution of

any questions or complaints concerning an action or decision by the BPS Board of Directors. The first step of the process includes a reconsideration review procedure which is handled by BPS. The second step of the process is an appeals procedure which is handled by a specially appointed Appeals Committee. The individual must first file the request for reconsideration before filing an appeal.

The process and procedures for appeal are available at [www.bpsweb.org](http://www.bpsweb.org) or upon request from the BPS office.

A reconsideration and appeal process is available to individuals seeking a redress of an action by BPS. All requests must be made in writing. The process and procedures for appeal are available at [www.bpsweb.org](http://www.bpsweb.org), or upon request from the BPS office.

If you experience a test administration issue and want to file a complaint, the complaint must be received by BPS within five (5) days of your examination date.

## REVOCATION OF CERTIFICATION

---

The certification of an individual may be revoked by BPS for any of the following reasons:

- Failure to complete or fulfill the requirements for certification or recertification;
- Failure to maintain professional licensure;
- Determination that certification or recertification was improperly granted;
- Misrepresentation or misstatement of facts submitted upon application for certification or recertification;
- Violation of Conflict of Interest and/or confidentiality/non-disclosure attestations to BPS.

## RECERTIFICATION

---

To maintain “Active” BPS status, recertification is required every seven years. Recertification requirements are listed in the BPS Specialties section (pages 14 to 17) as well as on the BPS website. Certificants are expected to keep their certification current. If requirements are not completed at the end of the seven year cycle, certification lapses. Once certification has lapsed, individuals must meet all current requirements, including passing the full-length, 175 question initial certification exam.

## ANNUAL CERTIFICATION MAINTENANCE

---

All BPS- certified pharmacists are required to register annually with the Board and pay a \$125 annual certification maintenance fee. An invoice will be sent to each certificant via e-mail in early May. Payment is due within 45 days of that e-mail notification. Pharmacists holding more than one BPS certification are assessed only one annual fee.

Failure to pay the annual fee results in removal of the individual’s name from BPS’ official list of certified pharmacists for that year. This list of BPS-certified specialists “in good

standing” is published on the Board’s website and elsewhere. Upon applying for recertification, all outstanding annual fees and a \$5 penalty fee for each late payment will be due. Failure to pay the annual certification maintenance fees can result in suspension of the certification.

## USE OF THE BPS MARK AND LOGO

---

The BPS certification mark and logo are the property of BPS. Permission to use the certification mark or logo is granted to certified persons at the discretion of BPS, for permissible uses only. A candidate who passes the examination will receive a certificate suitable for framing and will have the right to claim the mark of a Board Certified Pharmacist in the specific pharmacy specialty. Use of the BPS marks and logos is limited to those persons who have been granted the pharmacy specialty designation by BPS and who satisfy all maintenance and recertification requirements established by BPS.

### USE OF THE DESIGNATION:

To use letters in one’s title, individuals must: (1) meet and continue to meet our certification and recertification standards; (2) demonstrate the requisite experience requirements; and (3) agree to abide by the Code of Ethical and Professional Responsibility. Successful individuals are authorized to use the following certification marks or designations in communications and marketing materials, as appropriate: BCACP®, BCCCP®, BCNP®, BCNSP®, BCOP®, BCPPS®, BCPS® and BCPP®

## BPS SPECIALTIES

---

### AMBULATORY CARE PHARMACY

The BPS Board Certified Ambulatory Care Pharmacist (BCACP) program is a credential for pharmacists who have met the eligibility criteria below and provide integrated, accessible health care services for ambulatory patients in a wide variety of settings, including community pharmacies, clinics, and physician offices. The BCACP provides patient care, develops sustained partnerships with ambulatory patients and other health care providers in the context of family and community, and integrates care of patients with acute illnesses and chronic conditions.

The purpose of the BCACP program is to validate that the pharmacist has the advanced knowledge and experience to optimize patient outcomes by:

- Focusing on the special needs of patients who may have concurrent illnesses, are taking multiple medications, and often administer these drugs themselves or with the assistance of a caregiver at home.
- Managing patients between provider visits by assessing treatment, monitoring compliance, refilling prescriptions, and providing patient education.
- Educating and engaging patients in health promotion and wellness.

## Eligibility Requirements

The minimum requirements for this specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.
- Current, active license to practice pharmacy in the U.S. or another jurisdiction.
- Completion of four years of practice experience,\* post pharmacist licensure, with at least 50% of time spent in ambulatory care pharmacy activities (as defined by the BPS [Ambulatory Care Content Outline](#))  
**OR**
- Completion of a PGY1 residency\*\* plus one additional year of practice post-pharmacist licensure\* with at least 50% of time spent in ambulatory care pharmacy activities (as defined by the [Ambulatory Care Content Outline](#))  
**OR**
- Completion of a specialty (PGY2) residency\*\* in ambulatory care pharmacy  
**AND**
- Achieving a passing score on the Ambulatory Care Pharmacy Specialty Certification Examination

\* Practice experience should not be more than 7 years prior to the application date. Please note that your employer may be contacted by BPS for verification purposes.

\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.

## Examination Content (Refer to the Ambulatory Care Pharmacy Content Outline for details)

- Domain 1: Patient-Centered Care: Ambulatory Care Pharmacy (37% of the examination)
- Domain 2: Patient-Centered Care: Collaboration and Patient Advocacy (29% of the examination)
- Domain 3: Translation of Evidence into Practice (14% of the examination)
- Domain 4: Practice Models and Policy (14% of the examination)
- Domain 5: Population and Public Health (6% of the examination)

## Recertification

Pharmacists who earn the designation Board Certified Ambulatory Care Pharmacist (BCACP) will be required to maintain their certification over a seven year period by completing one of the following professional development activities:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination (administered by BPS), based on the content outline for the Ambulatory Care Pharmacy Specialty in their seventh year following initial certification;  
**OR**
- Earning 100 hours of continuing education credit provided by the professional development programs

approved by BPS.

To achieve the 100 hour requirement, the BCACP may participate in recertification offerings from both BPS-approved ambulatory care pharmacy providers.

A current, active license to practice pharmacy is required for recertification.

Board Certified Ambulatory Care Pharmacists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## CRITICAL CARE PHARMACY

The BPS Board Certified Critical Care Pharmacist (BCCP) program is a credential for pharmacists who have met the eligibility criteria below and specialize in the delivery of patient care services as integral members of interprofessional teams, working to ensure the safe and effective use of medications in critically ill patients.

The purpose of the BCCP program is to validate that the pharmacist has the advanced knowledge and experience to optimize patient outcomes by:

- Quickly assessing clinical data and delivering direct patient care to the critically ill and injured patient who may require specialized pharmacologic or technological interventions to maintain blood pressure, respiration, nutrition, and other homeostatic functions, in addition to helping to manage the patient's primary condition.
- Reviewing, analyzing, and frequently reassessing multifaceted clinical and technological data to make reasoned decisions for patients with life-threatening conditions and complex medication regimens whose pharmacokinetic and pharmacodynamic parameters differ substantially from the non-critically ill patient.

## Eligibility Requirements

The minimum requirements for Critical Care Pharmacy specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.
- Current, active license to practice pharmacy in the U.S. or another jurisdiction.
- Completion of four (4) years of practice experience,\* post-licensure, with at least 50% of time spent in critical care pharmacy activities (as defined by the BPS [Critical Care Pharmacy Content Outline](#))  
**OR**
- Completion of a PGY1 residency\*\* plus two (2) additional years of practice\* with at least 50% of time spent in critical care pharmacy activities (as defined by the BPS [Critical Care Pharmacy Content Outline](#))  
**OR**
- Completion of a specialty (PGY2) residency\*\* in critical care pharmacy.  
**AND**
- Achieving a passing score on the Critical Care Pharmacy Specialty Certification Examination.

*\* Practice experience should not be more than seven years prior to the application date. Please note that your employer may be contacted by BPS for verification purposes.*

*\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP) or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.*

## Examination Content (Refer to the Critical Care Pharmacy Content Outline for details.)

- Domain 1: Clinical Skills and Therapeutic Management (66% of the examination)
- Domain 2: Practice Administration and Development (15% of the examination)
- Domain 3: Information Management and Education (19% of the examination)

## Recertification

Pharmacists who earn the designation Board Certified Critical Care Pharmacist® (BCCCP) will be required to maintain their certification over a seven year period by completing one of the following professional development activities:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination (administered by BPS), based on the content outline for the Critical Care Pharmacy Specialty in their seventh year following initial certification;  
**OR**
- Earning 100 hours of continuing education credit provided by the professional development program(s) approved by BPS.

A current, active license to practice pharmacy is required for recertification.

Board Certified Critical Care Pharmacists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## NUCLEAR PHARMACY

The BPS Board Certified Nuclear Pharmacist (BCNP) program is a credential for pharmacists who have met the eligibility criteria below and who in their unique practice seek to improve and promote public health through the safe and effective use of radioactive drugs for diagnosis and therapy.

The purpose of the BCNP program is to validate that the pharmacist has the advanced knowledge and experience to optimize patient outcomes by:

- Managing the procurement, compounding, quality control testing, dispensing, distribution, and monitoring of highly toxic radiopharmaceuticals used for PET scans and other diagnostic procedures.
- Preparing medications and troubleshooting problems with scans.
- Consulting on health and safety issues concerning radiopharmaceuticals as well as the use of non-radioactive drugs and patient care.
- Playing an important role in quality control and cost management by thoroughly testing products before delivery.
- Minimizing error and patient exposure to radiation.

- Identifying whether a patient is on any interfering medications.

## Eligibility Requirements:

The minimum requirements for certification in nuclear pharmacy are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or program outside the U.S. that qualifies the individual to practice in the jurisdiction. Foreign-trained pharmacists must pass the Foreign Pharmacy Graduate Examination Committee (FPGEC) examination.
- Current, active license to practice pharmacy in the U.S. or another jurisdiction.
- 4,000 hours of training/experience in nuclear pharmacy practice.
- Achieving a passing score on the Nuclear Pharmacy Specialty Certification Examination.

The required 4,000 hours of experience may be earned in a variety of settings.

Academic up to 2,000 hours:

- Undergraduate courses in nuclear pharmacy: up to 100 hours experience for every quarter credit hour or 150 hours experience for every semester credit hour, to a maximum of 1,500 hours.
- Postgraduate courses in nuclear pharmacy: up to 100 hours experience for every quarter credit hour or 150 hours experience for every semester credit hour, to a maximum of 1,500 hours.
- MS or PhD degree in nuclear pharmacy: 2,000 hours.
- Successful completion of the Nuclear Pharmacy Certificate Program offered by Purdue University (217 hours) or The Ohio State University (214 hours), or the Nuclear Education Online (NEO) Program offered by the Universities of New Mexico and Arkansas (250 hours). Credit for other courses will be assessed on a case-by-case basis.

Training/Practice up to 4,000 hours:

- Residency\*\* in nuclear pharmacy: hour-for-hour credit to a maximum of 2,000 hours.
- Internship to satisfy requirements of state boards of pharmacy: hour-for-hour credit in a licensed nuclear pharmacy or facility authorized to handle radioactive materials, to a maximum of 2,000 hours.
- Nuclear pharmacy practice:\* hour-for-hour credit in a licensed nuclear pharmacy or health care facility approved by state or federal agencies to handle radioactive materials, to a maximum of 4,000 hours.

*\* Practice experience should not be dated more than 7 years prior to the application date. Please note that your employer may be contacted by BPS for verification purposes.*

*\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.*

## Examination Content (Refer to the Nuclear Pharmacy Content Outline for details)

- Domain 1: Procurement, Storage, and Handling (16 % of the examination)
- Domain 2: Preparation, Compounding, and Dispensing (38 % of the examination)
- Domain 3: Quality Assurance (17 % of the examination)
- Domain 4: Health and Safety (19% of examination)
- Domain 5: Drug Information and Professional Consultation (10 % of the examination)

Please note, in addition to multiple choice questions, the 175-question examination may include alternative question types such as drag and drop, drag and drop matching, and hot spot questions.

## Recertification

Pharmacists who earn the designation Board Certified Nuclear Pharmacist (BCNP), will be required to maintain their certification over a seven year period by completing one of the following professional development activities:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination, based on the content outline of the certification examination;
- OR**
- Earning 100 hours of continuing education credit provided by a professional development program approved by BPS.

At the time of recertification, the BCNP is also required to certify that (s)he is not currently under suspension by either the U.S. Nuclear Regulatory Commission or a state Radiation Control Organization.

A current, active license to practice pharmacy is required for recertification.

Board Certified Nuclear Pharmacists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## NUTRITION SUPPORT PHARMACY

The BPS Board Certified Nutrition Support Pharmacist (BCNSP) program is a credential for pharmacists who have met the eligibility criteria below and who in their unique practice address the care of patients receiving specialized nutrition support, including parenteral (IV) or enteral (feeding tube) nutrition.

The purpose of the BCNSP program is to validate that the pharmacist has the advanced knowledge and experience to optimize patient outcomes by:

- Promoting the maintenance and/or restoration of optimal nutritional status through design and modification of individualized treatment plans.
- Providing direct patient care, including patient assessment, type of feeding design, clinical monitoring, dosing of specific nutrients, and compatibility issues.
- Identifying unusual nutrient deficiencies to guarantee the safety of the patient.
- Ensuring that parenteral and enteral feeding formulations are properly prepared and administered.

- Monitoring and maintaining the patient's nutritional status during the critical transition to a care facility or home.

## Eligibility Requirements

The minimum requirements for this specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or program outside the U.S. that qualifies the individual to practice in the jurisdiction.
- Current, active license to practice pharmacy in the U.S. or another jurisdiction.
- Completion of three (3) years practice experience\* post-pharmacist licensure, with at least 50% of time spent in nutrition support pharmacy activities (as defined by the [Nutrition Support Content Outline](#))

**OR**

- Completion of a specialty (PGY2) residency\*\* in nutrition support pharmacy

**AND**

- Achieving a passing score on the Nutrition Support Pharmacy Specialty Certification Examination

*\*Practice experience should not be dated more than 7 years prior to the application date. Please note that your employer may be contacted by BPS for verification purposes.*

*\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.*

## Examination Content (Refer to the Nutrition Support Pharmacy Content Outline for details)

- Domain 1: Clinical Practice: Provision of Patient-Centered Nutrition Support (63% of the examination)
  - Subdomain A: Assessment (22% of the examination)
  - Subdomain B: Design and Initiation of a Therapeutic Plan of Care (27% of the examination)
  - Subdomain C: Monitoring and Management (14% of the examination)
- Domain 2: Nutrition Support Operations (30% of the examination)
  - Subdomain A: Practice Management (7% of the examination)
  - Subdomain B: Policy and Protocol Management (7% of the examination)
  - Subdomain C: Compounding Operations (16% of the examination)
- Domain 3: Retrieval, Interpretation, Generation, and Communication of Knowledge in Nutrition Support (7 % of the examination)

Please note, in addition to multiple choice questions, the 175-question examination may include alternative question types such as drag and drop, drag and drop matching, and hot spot questions.

## Recertification

Beginning in January 2017, Purdue University College of Pharmacy will assume responsibility as the BPS Professional Development Provider for the recertification of Board Certified Nutrition Support Pharmacists (BCNSP). Along with this new addition, BPS has updated the

rectification requirements for recertification in Nutrition Support Pharmacy.

All Board Certified Nutrition Support Pharmacists who certified/recertified between 2010 and 2015 should download the approved [BCNSP Continuing Education Transition Plan](#).

Recertification for those BCNSP certified/recertified in 2016 and beyond is achieved through an assessment of a practitioner's knowledge and skills through one of two methods:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination (administered by BPS) based on the content outline for the Nutrition Support Specialty in their seventh year following initial certification.

**OR**

- Earning 100 hours of continuing education credit provided by the approved programming offered by Purdue University.

Board Certified Nutrition Support Pharmacists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## **ONCOLOGY PHARMACY**

The BPS Board Certified Oncology Pharmacist (BCOP) program is a credential for pharmacists who have met the eligibility criteria below and who in their unique practice, involving an increasing number and complexity of drug therapies for treating and preventing cancer, manage cancer-related and drug-related adverse events or clinical situations not encountered in other disease states.

The purpose of the BCOP program is to validate that the pharmacist has the advanced knowledge and experience to optimize outcomes for patients with malignant diseases by:

- Recommending, designing, implementing, monitoring, and modifying pharmacotherapeutic plans.
- Reducing medication errors.
- Recognizing and responding to adverse physical and emotional issues that may arise during treatment and when providing education and counseling.

## **Eligibility Requirements**

The minimum requirements for this specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.
- Current, active license to practice pharmacy in the U.S. or another jurisdiction.
- Completion of four (4) years of practice experience,\* post-pharmacist licensure, with at least 50% of time spent in oncology pharmacy activities (as defined by the BPS [Oncology Pharmacy Content Outline](#))

**OR**

- Completion of a PGY1 residency\*\* plus two (2) additional years of practice post-pharmacist licensure,\* with at least 50% of time spent in oncology pharmacy activities (as

defined by the [Oncology Pharmacy Content Outline](#))

**OR**

- Completion of a specialty (PGY2) residency\*\* in oncology pharmacy.

**AND**

- Achieving a passing score on the Oncology Pharmacy Specialty Certification Examination

*\* Practice experience should not be dated more than 7 years prior to the application date. Please note that your employer may be contacted by BPS for verification purposes.*

*\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.*

## **Examination Content (Refer to the Oncology Pharmacy Content Outline for details)**

- Domain 1: Pathophysiology and Molecular Biology of Cancer (20% of the examination)
- Domain 2: Therapeutics, Patient Management and Education (38% of the examination)
- Domain 3: Clinical Trials and Research (14% of the examination)
- Domain 4: Practice Management (22% of the examination)
- Domain 5: Public Health (6% of the examination)

Please note, in addition to multiple choice questions, the 175-question examination may include alternative question types such as drag and drop, drag and drop matching, and hot spot questions.

## **Recertification**

Recertification for Board Certified Oncology Pharmacists (BCOP) requires assessment of a practitioner's knowledge and skills through one of two methods:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination, based on the content outline of the certification examination;
- OR**
- Earning 100 hours of continuing education credit provided by a professional development program approved by BPS.

A current, active license to practice pharmacy is required for recertification.

Board Certified Oncology Pharmacists Specialists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## **PEDIATRIC PHARMACY**

The BPS Board Certified Pediatric Pharmacy Specialist (BCPPS) program is a credential for pharmacists who have met the eligibility criteria below and who in their unique practice ensure safe and effective drug use and optimal medication therapy outcomes in patients up to 18 years of age.

The purpose of the BCPPS program is to validate that the pharmacist has the advanced knowledge and experience to optimize outcomes for pediatric patients by:

- Providing patient care to children, including providing alternative dosage forms and specialized drug therapy monitoring required for pediatric patients.
- Advocating for and educating children and their families about medications.
- Promoting wellness, health, and other activities that advance knowledge in pediatric pharmacy for both patients and other health care providers.

## Eligibility Requirements

The minimum requirements for Pediatric Pharmacy specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.
  - Current, active license to practice pharmacy in the U.S. or another jurisdiction.
  - Completion of four (4) years of practice experience,\* post-licensure, with at least 50% of time spent in pediatric pharmacy activities (as defined by the BPS [Pediatric Pharmacy Content Outline](#))
- OR**
- Completion of a PGY1 residency\*\* plus two (2) additional years of practice\* with at least 50% of time spent in pediatric pharmacy activities (as defined by the BPS [Pediatric Pharmacy Content Outline](#))
- OR**
- Completion of a specialty (PGY2) residency\*\* in pediatric pharmacy.
- AND**
- Achieving a passing score on the Pediatric Pharmacy Specialty Certification Examination.

\* Practice experience should not be more than seven years prior to the application date. Please note that your employer may be contacted by BPS for verification purposes.

\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.

## Examination Content (Refer to the Pediatric Pharmacy Content Outline for details.)

- Domain 1: Patient Management (58% of the examination)
- Domain 2: Practice Management (20% of the examination)
- Domain 3: Information Management and Education (18% of the examination)
- Domain 4: Public Health and Advocacy (4% of the examination)

## Recertification

Pharmacists who earn the designation Board Certified Pediatric Pharmacy Specialist (BCPPS) will be required to maintain their certification over a seven year period by completing one of the following professional development activities:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination (administered by BPS), based on the content outline for

the Pediatric Pharmacy Specialty in their seventh year following initial certification;

### OR

- Earning 100 hours of continuing education credit provided by the professional development program(s) approved by BPS.

A current, active license to practice pharmacy is required for recertification.

Board Certified Pediatric Pharmacy Specialists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## PHARMACOTHERAPY

The BPS Board Certified Pharmacotherapy Specialist (BCPS) program is a credential for pharmacists who have met the eligibility criteria below and who in their unique practice ensure the safe, appropriate, and economical use of medications as part of interprofessional treatment teams in a variety of settings, including hospitals and health systems.

The purpose of the BCPS program is to validate that the pharmacist has the advanced knowledge and experience to improve patient outcomes by:

- Optimizing medication use by serving as an objective, evidence-based source for therapeutic information and recommendations.
- Functioning as a member of an interprofessional team providing direct patient care.
- Working with physicians/prescribers in hospitals to design and/or modify patients' medication therapy regimens.
- Recommending adjustments to dosage or alternate medications when appropriate.
- Working with physicians/prescribers in outpatient settings to optimize medication therapy, and tracking progress and compliance.
- Making suggestions about diet and lifestyle changes to help patients better manage their health.

## Eligibility Requirements

The minimum requirements for this specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.
  - Current, active license to practice pharmacy in the U.S. or another jurisdiction.
  - Completion of three (3) years of practice experience,\* post-pharmacist licensure, with at least 50% of time spent in pharmacotherapy activities (as defined by the BPS [Pharmacotherapy Content Outline](#))
- OR**
- Completion of a PGY1 residency\*\*
- AND**
- Achieving a passing score on the Pharmacotherapy Specialty Certification Examination

\* Practice experience should not be more than seven years prior

to the application date. Please note that your employer may be contacted by BPS for verification purposes.

**\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.**

## Examination Content (Refer to the Pharmacotherapy Content Outline for details)

- Domain 1: Patient-specific Pharmacotherapy (55% of the examination)
- Domain 2: Drug Information and Evidence-Based Medicine (25% of the examination)
- Domain 3: System-Based Standards and Population-Based Pharmacotherapy (20% of the examination)

## Recertification

Recertification for Board Certified Pharmacotherapy Specialists (BCPS) is an assessment of a practitioner's knowledge and skills through one of two methods:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination, based on the content outline of the certification examination;
- OR**
- Earning 120 hours of continuing education credit provided by a professional development program approved by BPS.

A current, active license to practice pharmacy is required for recertification.

Board Certified Pharmacotherapy Specialists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## PSYCHIATRIC PHARMACY

The BPS Board Certified Psychiatric Pharmacist (BCPP) program is a credential for pharmacists who have met the eligibility criteria below and who in their unique practice provide person-centered care that ensures the safe, appropriate, evidence-based, and cost-effective use of medications in the treatment of persons with mental illness.

The purpose of the BCPP program is to validate that the pharmacist has the advanced knowledge and experience to optimize outcomes and recovery for patients with mental illness by:

- Designing, implementing, monitoring, and modifying treatment plans for patients.
- Educating patients, health care professionals, and other stakeholders.
- Providing leadership in the health system and public policy to improve the health of persons with mental illness.

## Eligibility Requirements

The minimum requirements for this specialty certification are:

- Graduation from a pharmacy program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.

- Current, active license to practice pharmacy in the U.S. or another jurisdiction.
- Completion of four (4) years of practice,\* post-pharmacist licensure, with at least 50% of time spent in psychiatric pharmacy activities (as defined by the BPS [Psychiatric Pharmacy Content Outline](#))

### OR

Completion of a PGY1 residency\*\* plus two (2) additional years of practice\* post-pharmacist licensure, with at least 50% of time spent in psychiatric pharmacy activities (as defined by the [Psychiatric Pharmacy Content Outline](#))

### OR

Completion of a specialty (PGY2) residency\*\* in psychiatric pharmacy.

### AND

Achieving a passing score on the Psychiatric Pharmacy Specialty Certification Examination

*\* Practice experience should not be more than seven years prior to the application date. Please note that your employer may be contacted for verification purposes.*

*\*\* Only residency programs accredited by the American Society of Health-System Pharmacists (ASHP), or new residency programs granted Candidate Status for accreditation by ASHP are creditable for this purpose.*

## Examination Content (Refer to the Psychiatric Pharmacy Content Outline for details)

- Domain 1: Person-Centered Care (55% of the examination)
- Domain 2: Translation of Evidence into Practice and Education (30% of the examination)
- Domain 3: Healthcare Policy, Advocacy, and Practice Management (15% of the examination)

## Recertification

Recertification for the Board Certified Psychiatric Pharmacist (BCPP) requires an assessment of a practitioner's knowledge and skills through one of two methods:

- Achieving a passing score on the 100-item multiple choice recertification examination, based on the content outline of the certification examination;
- OR**
- Earning 100 hours of continuing education credit provided by a professional development program approved by BPS.

A current, active license to practice pharmacy is required for recertification.

Board Certified Psychiatric Pharmacists are also required to pay the BPS Annual Certification Maintenance fee of \$125 each year for years one through six and a \$400 recertification fee in year seven.

## SAMPLE EXAMINATION QUESTIONS

The following sample questions provide candidates with an opportunity to review the FORMAT of questions used on BPS specialty certification examinations. Four possible answers are provided for each question, with only ONE designated as the correct or best choice. Please note that the Nuclear, Oncology and Psychiatric pharmacy examinations may also include alternative question types such as drag and drop, drag and drop matching, and hot spot questions.

### SAMPLE QUESTION

A 72-year-old patient is being treated with leuprolide 22.5 mg IM every 3 months for prostate cancer. The PSA level was 4 ng/mL 4 months ago and 10 ng/mL 3 months ago, and it is currently 25 ng/mL. A bone scan and staging CT scans reveal metastatic disease. Which regimen has been associated with the largest increase in survival?

- A. Bicalutamide 50 mg PO daily
- B. Docetaxel 30 mg/m<sup>2</sup> IV on days 1, 8, 15, 22, and 29 every 6 weeks and prednisone 5 mg PO twice daily
- \* C. Docetaxel 75 mg/m<sup>2</sup> IV every 21 days and prednisone 5 mg PO twice daily
- D. Mitoxantrone 12 mg/m<sup>2</sup> IV every 21 days and prednisone 5 mg PO twice daily

### SAMPLE QUESTION

A study is being conducted to compare a new smoking cessation medication to the nicotine patch. The primary goal of the study is to determine the number of patients who quit smoking at the end of a 6-month period. Which is the best statistical procedure for analyzing the primary outcome?

- \* A. Chi-square
- B. Wilcoxon rank sum
- C. Mann-Whitney *U* test
- D. McNemar's test

### SAMPLE QUESTION

A patient recently completed surgery for newly diagnosed stage IIIA non-small-cell lung cancer. The decision is made to treat with adjuvant cisplatin plus vinorelbine every 28 days. For optimal outcomes, the patient should receive this treatment for how many cycles?

- \* A. 2
- B. 4
- C. 6
- D. 8

### SAMPLE QUESTION

A 72-year-old male patient with a history of kidney transplant 8 years ago and three UTIs over the past year presents to the medical ICU with septic shock. The patient is treated for presumed urosepsis with ciprofloxacin, piperacillin/tazobactam, and vancomycin empirically. The patient is found to have large bilateral deep vein thrombosis, and the multidisciplinary treatment team notices that the patient has a "heparin allergy" that was documented in the chart 5 years ago.

The team wishes to know what the best treatment for deep vein thrombosis is at this time. Through exploration of electronic medical records, the critical care pharmacist finds that the heparin-induced platelet antibody (ELISA) 5 years ago was found to be positive and that the patient experienced microvascular thrombosis. A serotonin release assay (SRA) was not obtained. The critical care pharmacist finds that the patient's 4T Score was likely 6 (platelets fall by 40% 6 days after initiation of a heparin continuous infusion). The patient's serum creatinine is currently 3.15 mg/dL (baseline 1.3-1.6 mg/dL) with a urine output of approximately 15 mL/hour. The acute renal consult service has been consulted and is strongly considering continuous renal replacement therapy for acute kidney injury.

When factoring in safety and cost, what is the best recommendation at this time for treatment of the patient's deep vein thrombosis?

- A. Heparin continuous infusion
- \* B. Argatroban continuous infusion
- C. Fondaparinux subcutaneously daily
- D. Enoxaparin therapeutic dosing subcutaneously twice daily

### SAMPLE QUESTION

Alopecia, delayed wound healing, and fatty liver may indicate a deficiency in which nutrient?

- A. Calcium
- B. Dextrose
- \* C. Lipid emulsion
- D. Magnesium

### SAMPLE QUESTION

If a technetium Tc-99m albumin aggregated kit containing 4 million particles was reconstituted at 6:00 A.M. using 50 mCi of technetium Tc-99m sodium pertechnetate, what is the earliest time at which a 4-mCi dosage would include more particles than the recommended limit of 700,000?

- A. 9:00 A.M.
- B. 11:00 A.M.
- \* C. 1:00 P.M.
- D. 3:00 P.M.

### SAMPLE QUESTION

Which physical assessment finding would be consistent with an exacerbation of heart failure?

- \* A. Rales
- B. Systolic murmur
- C. Lobar consolidation
- D. S2 gallop

### SAMPLE QUESTION

A study of treatment of females with anthracycline-resistant breast cancer obtained the following data:

Parameter	Overall response rate	Median duration of response	One-year mortality rate from start of treatment
Docetaxel	47%	6 months	57%
Paclitaxel	21%	6 months	57%

### **SAMPLE QUESTION**

Which would be the best study design to test for an economic benefit using docetaxel or paclitaxel as second-line therapy for female patients with anthracycline-resistant metastatic breast cancers?

- Cost-benefit analysis
- Cost-effectiveness analysis
- Cost-minimization analysis
- \* D. Cost-utility analysis

### **SAMPLE QUESTION**

What is the initial step of the evaluation of a potential stroke patient?

- A. CT scan with contrast
- B. Assessment of National Institutes of Health Stroke Scale score
- \* C. Immediate stabilization of the airway, breathing, and circulation
- D. Gathering past medical history and current medication

### **SAMPLE QUESTION**

For patients who are initiated on atypical antipsychotic medications, which baseline monitoring parameter is recommended?

- \* A. Waist circumference
- B. ECG
- C. Thyroid-stimulating hormone
- D. Prolactin

## MISSION STATEMENT

The Mission of the Board of Pharmacy Specialties is to improve patient care by promoting the recognition and value of specialized training, knowledge, and skills in pharmacy and specialty board certification of pharmacists.

### We will accomplish this mission by:

- *Providing leadership for the profession of pharmacy in the discussion, evolution, direction and recognition of specialty board certification of pharmacists;*
- *Establishing and promoting, in collaboration with stakeholders, the value of pharmacy specialization and board certification;*
- *Establishing the standards for identification and recognition of pharmacy specialties;*
- *Establishing standards of eligibility, knowledge, and skills as the basis for board certification;*
- *Developing and administering a valid process to evaluate the knowledge and skills for recognition of board certified pharmacists;*
- *Assessing and recognizing the continued eligibility, knowledge, and skills of board certified pharmacist specialists through a valid recertification process.*
